

Zero Install Hot and Cold RO Water Dispenser MN-BRT01C

Designed with the user in mind

-  No need of installation, very compact and can be put anywhere that have a power supply.
-  Designed with ease and practicality in mind, incredibly easy to use and assemble
-  Instant boiling system, getting healthy water fast.
-  Patent protected electronic cooling system, efficient and cost saving
-  Get water of cold, ambient, warm, hot or boiling water at your needs
 - 7-10°C ,ideal for cold drinks
 - 25 ° C, ideal for direct drinking
 - Warm water (40 ° C - 50 ° C), ideal for baby food
 - Hot water (80 ° C - 88 ° C), ideal for coffee.
 - Nearly boiling water (90 ° C - 98 ° C), ideal for tea.
-  Three option of volume to dispense: 150ml,250ml,1000ml
-  Automatic shutdown mode, save energy
-  Quick change powerful filtration system with filter change alarm ensuring quality of water
 - Compound filter(PP+Carbon): removes coarse particles, chlorine and organic impurities, etc.
 - RO Membrane: removes all pollutants and flavors to almost 100%
-  With water shortage alarm, and easy to fill up the water
-  Auto-sterilization of water tank with UV-LED (optional)
-  For customers with harder or water with higher TDS, we do not recommend this product unless you are happy to make be more frequent membrane filter changes

Technical Data

Rated voltage: 220-240V	Rated frequency: 50Hz
Rated total power: 2100W	Filter Size: 10 inch
Filtering accuracy RO: 0.0001µm	
Flow rate of cold water: \cong 0.13L/min	
Flow rate of hot water: \cong 0.45L/min	
Hot /cold water capacity: \cong 30L/h; \cong 1.5L/h	
Tank Volume (raw water): 5L (PP Food Grade)	
Tank Volume(Cold water): 1.5L(PP Food Grade)	
Tank Volume (pure water): 1.5L (PP Food Grade)	
Filter Life Expectancy: Total 2000L.	
Fiter Change: PP: 3-6 months; Post Carbon: 1 year; RO: 1 year	
N.W.: 8.1Kgs G: 9.1Kgs	
Product Size: 175x380x440mm Packing Size: 275x485x495mm	
Loading (20GP/40GP/40HQ)/PCS: 472/960/1152pcs
